Ingredients:

1 block extra-firm tofu
1 Tbsp neutral-flavored oil, such as canola or grapeseed
1 Tbsp soy sauce
1 Tbsp cornstarch

Directions:

Preheat oven to 400° F. Remove tofu from package and drain. Gently press tofu between two paper towels to remove excess water. Cut into cubes. Add tofu cubes to a medium mixing bowl. Add oil and soy sauce; stir gently with a rubber spatula to combine. Add cornstarch; stir until tofu cubes are evenly coated. Transfer to a lined baking sheet. Bake for 20 to 25 minutes.

Excerpt from a suspense novel

Shia looked up from his monitor, rubbed his eyes, and stared down the dark hallway toward the CFO's office. He was certain a sound had come from behind the closed door. It was a heavy thump, like someone had dropped a bowling ball.

There shouldn't be anyone else here at this hour, Shia thought to himself as he looked at his watch. The only illumination came from Shia's computer monitor. His office was on the thirtieth floor, fa… more than a faint glow from the street lights be… before reaching down to turn off the computer… the darkness. He considered turning on his pho… thoughts were cut short by a loud crash follow… tinkling of shattered glass.

Shia froze, as if he were caught by the gaze of Medusa. The initial doubt that he would actually find someone snooping around the CFO's office had turned to an icy fear that gripped his lungs and would not let him breathe. His heart was pounding loudly in his ears; he knew whoever was in his boss's office must be able to hear it.

As libraries continue to evolve in the digital age, their offerings have expanded well beyond the traditional rows of books. Today's libraries are vibrant community hubs, well equipped with various technological tools that enhance the learning and research experience for visitors of all ages.

Upon entering the modern library, visitors are often greeted by digital kiosks, where they can easily search the catalog, renew or reserve items, and find their way around the facility. Libraries have also adopted self-checkout machines, allowing patrons to borrow books, DVDs, and other materials without waiting in line.

Moreover, many libraries now offer free access to computers and high-speed internet, making them invaluable resources for those who do not have such access at home. These computers are often equipped with software for word processing, graphic design, and even coding, providing an essential platform for completing school assignments, conducting job searches, or exploring new learning opportunities.

On February 2 of each year, the United States observes the unusual holiday of Groundhog Day, a day of hope that winter is over and spring is beginning. This tradition has been officially observed in the U.S. since the 1800s, and is believed to have developed from European folk traditions in which a bear, fox, badger, or even hedgehog would serve as the symbolic meteorologist. Although other cultures and towns observe Groundhog Day (or something similar), the town of Punxsutawney, Pennsylvania takes special pride in being home to the one true forecasting groundhog, Punxsutawney Phil. At the turn of the twentieth century, townspeople formed the Punxsutawney Groundhog Club to perpetuate the joyful rituals and events surrounding Groundhog Day. Over the years, these events have come to include a scavenger hunt, a talent show, and a ball.

Legend has it that on Groundhog Day the official w… groundhog awakens from hibernation and comes … look for his shadow. If he sees his shadow, six mo… to come, and Punxsutawney Phil goes back to bed … not see his shadow, Punxsutawney Phil takes this as a sign that spring has arrived, and he remains above ground. Of course, common sense tells us that February 2 is too early for spring to begin, and that while animals may be attuned to various elements of nature from which humans might learn, they are unlikely to act on their instincts based on a schedule set by a Gregorian calendar. Nevertheless, a visit to
