FLAG

Studies suggest that more than 9 billion metric tons of plastic have been produced since 1950, more than four times the volume of Mt. Everest, and about 75% of it remains in landfills or has entered the environment as pollution. As a material, plastic has many advantages. However, it is difficult to recycle because popular single-use and convenience items, such as packaging and water bottles, are low in quality and value when recycled.

Part of the magic of plastic is that it seemingly lasts forever. But when it cannot be re-used efficiently, it leads to stark realities like an island of plastic, twice the size of Texas, floating in the Pacific Ocean. Plastic is consumed by fish and birds and is seeping into the air, water, and our food.

Letter from the Chair of Elkinsville Ecological Society

Many of you have heard about the proposed northward expansion of the interstate, which currently ends just south of Elkinsville. In the recent debate over how this work will go forward, the focus has been on weighing economic costs and benefits. Indeed, many local politicians claim to favor the project because it will bring jobs in the short term and more visitors to Elkinsville in the long term. These politicians also argue that the proposed plan is the least environmentally damaging way to expand the highway farther upstate. This cannot be true, however, since the proposed expansion involves not just the widening of existing roads, but also the construction of more than a dozen miles of new-terrain hig

Which of the following statements about the passage is true?

- Elkinsville politicians have conducted a survey of how residents feel about the interstate expansion's benefits.
- The Elkinsville Environmental Society has a strong argument about the interstate expansion because it is based on facts and research.
- The Elkinsville Environmental Society is concerned about the ecological effect both the widening and the northern expansion of the interstate highway will have.
- Elkinsville politicians base their position, in part, on assumptions about the effect on the local economy jobs needed to build the interstate will have.

Question: 7 of 45

Hey there, kitchen utensil aficionados! It's Bob Thurman again, bringing you a brand-new piece of equipment for your home food station! Are you tired of your blocks of premium aged cheddar getting all crumbly when you try to slice them? Don't you hate leaving your fingerprints in that hard stick of butter? Well, worry no more! From the company that brought you the SmackDice comes the Dairy McGrabs! You no longer have to worry about your firm, sweaty grip destroying your cheeses or your butters. All you have to do is slip on our patented heat-deflecting mitten, complete with plasti-grip palm pad, and slice your smooth dairy products with no threat of them melting or crumbling from your body heat!

Stimulus: 1 of 2

Which of the following statements is an opinion based on the informercial?

- Thurman says the Dairy McGrabs works by blocking body heat.
- The company selling this product also developed the SmackDice.
- he Dairy McGrabs is a kitchen utensil.
- eople must use this product to properly handle dairy food.

Egg Replacements in Baking

Eggs are an important staple of many baking recipes. They serve several crucial functions, such as binding, leavening, and providing moisture to the final product. However, some people are unable to consume eggs for a variety of reasons. If you are one of these people, baking can seem daunting. Fortunately, there are several substitutions that will allow you to continue enjoying your delicious treats without using eggs.

Two popular egg replacements are applesauce and banana. These things work well enough to provide moisture to your dessert, but they are suboptimal replacements overall, because [illegible] function of the egg. When using applesauc[illegible] may find that your baked goods crumble [illegible] here are other ways to achieve binding an[illegible] similar to those of eggs.

Eggs help emulsify the disparate ingredients of your recipe into one homogenous batter or dough. To achieve this, it is most effective to use something with protein or fat that will bind to the starch. One option is a quarter cup of plain yogurt, sour cream, or buttermilk for each egg—either

Alice was not scared. Not at all. Maybe a little bit. But she was determined to confront the ghost in her house. Alice lived in a farmhouse built in 1921. All of the floors and doors were original; the doors even had skeleton key locks. But by far the most terrifying part of the house was the basement. She kept that door locked and ignored the thumps, crashes, and cries that came from below the house. What made Alice determined to confront the ghost today was the especially loud crashes the previous night. She'd gotten no sleep, convinced the ghost was going to break through the door and do something horrible. What, she wasn't sure, but the ghost would do something.

Alice hadn't seen the ghost, but what else could be making loud noises in an old house? The one time she had been down in the basement was after buying the house unseen. Once she saw th

Alice stared at the basement door, trying to gather enough confidence to open it and march down the stairs like she owned the place. Because she did—or she would, once she finished paying her mortgage in 30 years. Alice took a deep breath and yanked the door open. She marched down the

Stimulus: 1 of 5

Which of the following phrases from the passage added humor to an otherwise fearful mood?

- But what made her keep the door shut and locked was the abrupt end of the concrete floor halfway across the room.
- All of the floors and doors were original; the doors even had skeleton key locks.
- Because she did—or she would once she finished paying her mortgage in 30 years.
- She'd gotten no sleep, convinced the ghost was going to break through the door and do something horrible.

Question: 21 of 45

In 1943, the war in the Pacific raged on. First Lady Eleanor Roosevelt went to rally the troops' spirits, despite the disapproval of military command. Roosevelt planned a grueling itinerary. She visited several islands and hundreds of wounded in her first 6 days. The indefatigable First Lady inspected Navy hospitals, delivered a speech, attended receptions, and visited convalescing officers, all within 12 hours of her arrival. She lifted spirits among the wounded and morale among the troops. She continued her exhausting tour for a month, speaking to every patient in troop hospitals and taking down addresses to contact family members. Roosevelt traveled non-stop, risked her life, and greeted the last patient she saw with the same heartfelt sincerity as the first.

Stimulus: 1 of 3

Based on context, which of the following is the most accurate definition of the word "indefatigable"?

- Sympathetic
- Ambitious
- Tireless
- Enthusiastic

The Big Apple

James finally unpacked the last of his boxes in a cozy studio apartment nestled in the heart of New York City. Moving here from a small town to pursue a career in graphic design, he was awestruck by the sheer energy of the city. The endless stream of taxis, the towering skyscrapers, and the symphony of urban sounds were exhilarating. With Broadway shows, museums, and galleries at his doorstep, James found every evening booked with new adventures. His calendar was filling up quickly — from networking events to art exhibitions — making the city's nickname, "The City That Never Sleeps," a tangible reality for him. This was the bustling life he had dreamed of, and now it was his reality.

Stimulus: 1 of 2

Based on the passage, which of the following is an inferred reason for why James's calendar is quickly filling up?

- His interest in cultural activities and networking is driving his engagements.
- The overwhelming sounds of the city require him to spend more time indoors.
- There are limited activities available in the city.
- There are a myriad of people in New York City who are interested in graphic design.

Question: 30 of 45

Buy LED! Switch to LED bulbs today for a brighter, more energy-efficient future! Unlike traditional incandescent bulbs, which lose 90% of their energy as heat, LEDs use their energy much more efficiently, converting 95% into light with only 5% wasted as heat. This switch not only saves on your electricity bill, but it also helps to reduce your carbon footprint. Moreover, LED bulbs last up to 25 times longer than incandescent bulbs, significantly decreasing the frequency of replacements. This means less hassle and more savings over time. Make the smart choice; choose LED bulbs and light up your home while saving the planet and your pocketbook. It's not just a bulb; it's a smart investment!

Stimulus: 2 of 2

Which of the following sentences is a claim from the passage about LED bulbs?

- Traditional incandescent bulbs use their energy efficiently.
- LED bulbs make the home less bright compared to traditional bulbs.
- Switching to LED bulbs is a matter of visual preference.
- LED bulbs use energy more efficiently than incandescent bulbs.

Read the paragraph and answer the question.

After the victory of the revolutionary forces in 1783, General George Washington resigned his military commission and retired from public life. At that time, Washington's letters reveal, the retirement was intended to be a permanent one. Among other projects as a private citizen, he planned to improve his estate and to find a use for his outlying lands. Within a few years, however, Shays' Rebellion made clear to many the need for a national constitution. At the ensuing Constitutional Convention, Washington was chosen to represent Virginia, an honor he reluctantly embraced.

Which of the following sentences could be removed with the least impact on the structure and coherence of the paragraph?

- Within a few years, however, Shays' Rebellion made clear to many the need for a national constitution.
- After the victory of the revolutionary forces in 1783, General George Washington resigned his military commission and retired from public life.
- At that time, Washington's letters reveal, the retirement was intended to be a permanent one.
- Among other projects as a private citizen, he planned to improve his estate and to find a use for his outlying lands.

Change in shift policy for supervisors
Bev Jones (bcjones@wutheringhealth.org)
To me, Cathy, Heath, 5 others

Dear Supervisors:
As you know, the holidays are a challenging time for scheduling, and supervisory roles are no exception. In the past, we have tried to offer flexibility by letting supervisors decide among themselves how to allocate shifts during the five major winter holidays: Thanksgiving, Christmas Eve, Christmas Day, New Year's Eve, and New Year's Day. Needless to say, these are days that nobody especially cares to work, and we would surely all rather be with our families. Last year, however, the trouble with this policy became evident when only one supervisor was able to cover an extended emergency absence and had to work three consecutive days on Christmas week. Going forward, we will require that supervisors commit to two 8-hour shifts over the course of these five holidays. We will also request that each supervisor sign up to be "on call" for one of the remaining days so that no one is forced to work a double shift to cover an emergency absence.

Thanks in advance for your cooperation,
Beverley C. Jones
Vice President of Human Resources
Wuthering Heights Health Network

Which of the following changes would most improve the paragraph above?

- Eliminate the list of winter holidays: "Thanksgiving, Christmas Eve, Christmas Day, New Year's Eve, and New Year's Day".
- Eliminate the first sentence: "As you know, the holidays are a challenging time for scheduling, and supervisory roles are no exception".
- Eliminate the fourth sentence: "Last year, however, the trouble with this policy became evident when only one supervisor was able to cover an extended emergency absence and had to work three consecutive days on Christmas week".
- Eliminate the third sentence: "Needless to say, these are days that nobody especially cares to work, and we would surely all rather be with our families".
